SOFTWARE DEVELOPMENT

The Difference   2022
Software Engineer Intern
- Selected to launching my career by interning in a job related to my major in Computer Science to learn the technical and soft skills needed to work as part of a team
- Working on adding functionality in Flutter framework which includes Dart, Widgets, and State Management expertise
- Developing a Full-stack CRUD Admin Panel with React, Express and MySQL to increase team performance

Headstarter   2022
Software Engineering Fellow
- Utilizing MVC design patterns to build full-stack applications with React.JS, Node.JS, Express.JS, and AWS Lambda
- Leaning the fundamental of software engineering as a fellow through the use of case studies and solving technical issues faced by Google, Capital One, & Microsoft
- Engineers from Amazon, Bloomberg, and Capital One are training me on Agile, CI/CD, Git, and microservice patterns

EverUp   2022
Software Engineer Apprentice
- Utilizing HTML, CSS, JavaScript, Bootstrap, React, Firebase, Tailwind, Python, PostgreSQL, Cloud Computing to build and launch a Full-stack application
- Participating in a demanding 5-week coding bootcamp where I spent more than 100 hours learning various technologies
- Developing a portfolio and gaining hands-on experience by constructing a custom web application and database from scratch

EDUCATION

York College | Bachelor of Science   2020 - 2022
- **Major:** Computer Science **Minor:** Communication Technology

Borough of Manhattan Community College | Associate of Science   2018 - 2020
- **Major:** Computer Science

NOTABLE PROJECTS

Nueva Temporada App | Software Development Volunteer
- Created a platform to display up-to-date company media and communications. Designed and developed a Flutter based app with a minimalistic design. Enables the user to view current and previous livestreams

MovieB | Software Development Project
- Collaborated with a team to build administration side and customer side of Application. Utilized PHP and MySQL for the backed, Bootstrap for the frontend to develop the application. Enabled the users to reserve and browse tickets online from a database

AWARDS

York College Deans List | York College   2022
- As a result of my excellent academic performance in college, I was added to the Dean's list, where I remained through my senior year and graduation
